HarknessKennett sponsors “Race for Life”

July 9th, 2006

Pulborough, West Sussex was a new venue for the popular “Race for Life” in aid of Cancer Research this year. HarknessKennett was represented by administration assistant Jane Edevane, making her debut run to raise money for one of the nation’s favourite charities.

“The atmosphere was amazing, a real sense of closeness and team effort,” said Jane. “There were 2000 women of all ages running for family members, friends and work colleagues. It was really quite heart warming reading all the messages they had written about their loved ones.”

Having spent weeks training in all weathers, Jane ran a very respectable 5km run in just 30 minutes – earning the respect of all her slightly more desk-bound colleagues at HarknessKennett!
